TOGETHER, we can make change happen

Employers, councils, government, transport operators, and us, we all have a role to play in keeping workers safe on their commute to and from work.

The stats are shocking: over 1 in 4 women will be a victim of sexual assault or attempted assault in their lifetimes. Get involved to make a difference.

3 GET ME HOME SAFELY ACTIONS:

- 1** **In your workplace** – talk to your Unite branch, reps and colleagues about starting a campaign in your workplace. Email us: getmehomesafely@unitetheunion.org. We'll send you a toolkit, link you up with activists and guide you through negotiating safe transport home policies with your employer.
- 2** **In your community** – tell your councillors that we want safe transport home made a condition for hospitality venues applying for premises licenses and alcohol licenses. Find out more here: unitetheunion.org/gmhs
- 3** **In your union** – *Keep in touch, and check the website for the latest updates.*
