

Unite celebrates Black History Month

October 2024

Throughout history Black and Asian workers have faced racism in this country.

Together with friends in the trade union and labour movement we confronted the fascist ideology and won! No return to those dark days.

Let us celebrate what we have in common and respect our differences.

We reject racism and hatred, and campaign for Unity over Division.

With our collective strength we continue to organise in workplaces and communities to ensure our 4 principles of:

1 **Unity**

2 **Equality**

3 **Trade Union Rights**

4 **Solidarity**
