Join a union with 1.3 million members

As Ireland and Britain's largest Union, with 1.3 million members, this is your chance to lead a community fightback against inequality and division.

As a Unite Community member you will be working with other concerned citizens to protect your Right2Water and fight for your Right2Housing, to Jobs and Decent Work, to Education, to Healthcare, your right to a Sustainable Environment, relief from Ireland's odious debt, to Democratic Reform and a new accountable democracy, to reclaiming and protecting our National Resources, and to a more Equal society economically and socially.

It is only our disunity that keeps them in power. Unite in your community for real change.

The communities that we all live in are under ideological attack. The public services we need are being made unaffordable and unattainable. Whether it be a roof over your head, healthcare when you are sick, education for your children or other public services, private interests are now placed above the public good. And this is a matter of policy.

Only sustained public pressure from concerned citizens has shown that Government policy on key issues, such as your Right2Water, can be reversed. This pressure must be maintained on water and grow on all the issues that negatively impact on you and on generations to come.

If you want a better fairer Ireland, one that really does seek to cherish all of its children equally, then working together can truly put the 'unity' back in your community.

UNITE COMMUNITY SAYS ENOUGH IS ENOUGH

Unite the union opposes austerity and the political parties and philosophy that introduced it. When the Irish people needed political support from 2008 what they got were political lies, betrayal and sell-out. Only by fighting back can these parties of austerity be challenged and removed.

CAMPAIGN FOR YOUR RIGHT2CHANGE

Right2Change (www.right2change.ie) is a broad progressive policy platform developed ground up by concerned citizens and community movements with trade union facilitation. This recipe got some political support and forced some political change. But we must do more, sustain it for longer, and make the fight for progressive change a permanent part of community life.

JOIN UNITE COMMUNITY

For a nominal sign up of just 60c per week you can play a key part in that change. By joining Unite Community you can build your own networks and strategies to campaign for change locally and nationally. And Unite is pledged to putting considerable resources at your disposal to help you. So what is keeping you? There is no time to waste.
