Dear Prime Minister,
LGBT+ conversion therapy has no scientific or therapeutic support whatsoever. It is about suppressing a person's sexuality or gender identity. All too often it leads to mental and emotional damage. It is about attempting to exorcise an integral part of who a person is. It doesn't work and is inherently abusive.

We call on the government to ban LGBT+ Conversion Therapy for everyone NOW.

It must not allow religious exemptions. Faith bodies are the main proponents of these unethical, harmful and ineffective so-called cures.

The ban needs to be fully comprehensive and provide statutory support for victims and survivors.
