THE GOVERNMENT'S PAY OFFER FOR 2022/23 WAS SIMPLY NOT GOOD ENOUGH.

Unite's NHS members voted to reject that pay deal because it was an insult to your professionalism and dedication.

Unite is now balloting our NHS members in England for a new mandate for industrial action on pay and safe staffing.

We are urging you to VOTE YES once more.

THIS IS ABOUT THE FUTURE OF OUR NHS

Safe staffing and pay go hand in hand to save our NHS. That is why Unite will be asking you to VOTE YES to take action on both.

The latest pay deal from the government was below inflation so yet another cut to your pay.

And it will inflame the chronic recruitment and retention crisis which is already threatening patient care.

Further, Unite remains seriously concerned that the government's pay deal is not NEW MONEY but will instead be taken from current NHS budgets. Patients will suffer.

The public are on your side. They understand who is to blame for the crisis engulfing our NHS, this government. They trust NHS staff to stand up to save this service.

WHAT NEXT?

**Unite is now balloting our
NHS England members on:**

- Safe staffing
- A fair pay deal

GET READY TO VOTE YES

Your ballot papers are on their way.
