

Marking Windrush 75th anniversary

Unite salutes the Windrush pioneers

On Windrush Day, 22 June, we are proud to celebrate 75th anniversary of the arrival of Empire Windrush at Tilbury Docks. We continue to campaign for justice for those affected by the Windrush scandal.

Generations of black people have made a positive difference to the lives of many people in our society through their hard work and dedication to not only public services but across all industries. They have contributed to the Trade Union and the Labour Movement in Britain and continue to be involved in our union, Unite.

Join the campaign by getting involved in Windrush Day events around the country
